Tel: 256-882-9589

## Comments:

Photon radiation momentum  
 $= \frac{h\nu}{c}$  where  $\nu$  is the  
 frequency,  $h$  Planck's constant,  
 $c$  the speed of light.  
 The significance is that  
 momentum is NOT carried  
 by mass.  
 A pulse of radiation carries  
 momentum.
